The Nature of All Reality and the Universal Construct

Quantum physics states that everything in the universe is pure energy, differing only in rate of vibration.

We must understand that all things exist as energy even beyond the ordinary physical dimension to the realm where current scientific instruments cannot measure its rate of vibration. All things exist as energy from the lowest rate of vibration, the densest physical condensate of matter all the way to the highest rate of vibration in the universe, The Source, God. **The Entire Universe is a Single Super Spectrum of Universal Energy.**

Some people have the perspective that the physical universe of matter and energy was created and therefore may be destroyed. Information is uncreated and therefore indestructible and eternal. The bible says that in the beginning was the Word, and the Word was with God and the Word was God. The Word is Jesus Christ and the Word is also Information. Hence the concept of the x, y and z parameters of reality. Matter, Energy and Information (DNA, universal code, intelligent design).

But Einstein says that energy can neither be created nor destroyed. It is merely converted from one form to another. The Universal Equation $E=MC^2$ does not mean Matter is converted Energy. It means Matter is Energy.

Matter is Energy. Energy is Matter.

So actually, the physical universe was “created” merely by the process of **energy changing from one form to another**. The creation and cessation of all things physical is simply manifestation and unmanifestation.

Quantum physics states that something can actually come into existence only when it is observed. That means that **something only exist because a mind first thought it into existence**. Everything exists primarily as a quantum potentiality or Quanta. When something is observed, **Quanta which is Energy** come together to form subatomic particles, and in turn atoms, then molecules until finally something manifests in the physical world as a localized space-time event that can be observed by the five physical senses.

This Energy is also conscious and infinite, therefore it is actually **Infinite Living Mind!** Everything in the Universe has its being from this infinite intelligent Energy.

Imagine that every time this Intelligence moves or thinks an **icicle is formed in the water**, exactly corresponding to the thought. We might have countless numbers of icicles of different forms, colors and sizes but these **icicles would still be water**. If we could heat the whole mass, it would melt, and all the forms would again become fluent. Nothing would have changed but form. This is all there is to matter.

Matter is Spirit in Form.

Subatomic particles are simply **energy packets**. You are a cluster of energy, so is everything else. A cluster of energy is always in motion, moving and changing to form new configuration at every moment. The table that is in your dining room is not as solid as it appears to be. On a highly magnified level, you would realize that it is in constant flux, “losing” and “gaining” billions of energy packets, but intelligently maintaining the overall “look” of a table. **There is a consciousness that keeps the energy in that particular form.**

All Matter is Energy In-Formation.

When something is no longer observed by consciousness, it will cease to exist by unmanifesting back into a state of quantum potentiality or Quanta, Energy. That’s the reason why the bible says that it is **Christ (The Superconscious), who holds all things in the universe together**. Scientist says that all the electrons

and subatomic particles of an atom are held together in their precise position and orbit by an **invisible force**, by which without it, everything would fall apart and reality as we know it, would cease to exist in an instant.

Christ the center of the universe, whose center is everywhere but circumference nowhere. Christ is the Superconscious, Information and infinite intelligence.

Ultimately all matter, energy and information are one and the same. All matter is energy, all energy is information. Information is thought, thought is consciousness.

Consciousness is Mind. **The Universal Construct is Mind.**

Mind is Reality. Reality is Mind.

The entire Universe from the Source, The First Cause, God is Energy vibrating relative to the frequency of The Source, **The Source being the very centre of the Universe of Energy and the physical world being the outermost shell**, the physical three dimensional Universe as observed by means of the physical senses, existing at the lowest rate of vibration and the highest density. The physical Universe of matter represents only a tiny fraction of the Universe of Energy and vibration in its entirety.

All Energy is influenced by thought and structures itself into taking form as an observable effect. Everything that happens, has happened and will happen in the entire Universe, **first originated as a thought originating from the Mind of a Being**, which in turn has its corresponding effect on Energy and becomes a corresponding and potentially observable effect.

The Ultimate act of Creation by the First Cause, The Source, God of the entire Universe in all its glorious spheres, planes and dimensions originated in the very beginning as a thought in the Mind of God. It can be truly said therefore that **we all exist as "expressions", within the Mind of God**, made in the true Spiritual image of God.

So by seeing things from a unified perspective, we know that the physical state of matter and energy are "created and destroyed" by being converted from one form to another. All things preexist in spiritual form and are converted to physical form and back.

Hebrews 11:3 "Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear".

God is Mind. Mind is Totality.

Law of Attraction - Having is about Being

We know from the Nature of All Reality and the Universal Construct that everything in the entire universe is pure energy, differing only in rate of vibration.

How does the Law of Attraction work? It works according to the principle of vibration. Everything vibrates and vibration is Energy. Energy attracts energy that is of the same rate of vibration. **Energy attracts like Energy**. Hence the statement, **"All is energy and the energy you give out is the results you get"**.

The Law of Attraction is you draw into your life whatever you focus on and emotionalize. You attract to you everything and anything you hold in your mind, whether wanted or unwanted. **Simply by observing your reality is created**.

To focus is to concentrate attention or energy. Attention is psychic energy. Psychic energy is living and conscious. Whatever you give psychic energy to, you are giving it mental life to exist. That is why the more you place your mind on something, the more it lives. The less you do, the less power it has to remain alive. When you do not pay attention to something, it ceases to exist over time.

The more we focus, the more attractive and stronger our vibration becomes, and the more quickly it manifests. **To practice the Law of Attraction, simply put your attention and your positive emotions upon the essence of your dreams fulfilled**, as if you already have them now! **Be contented to wholly experience them in your mental world first**.

The Hebrew word for **bleed is kabad** which is to **give weight, to honor or to treat as important**. The Hebrew word for **curse is qalal** which is to **make light of, to despise or to lightly esteem**.

When you appreciate something, it appreciates in value. Bless the little and the little becomes a lot. When you do not appreciate something, it depreciates in value. Focus your mind and will on the positive and detach from the negative. **What you focus and give attention to, you bless**. What you neglect and withhold attention from, you curse.

When you acknowledge that God is the one at work in the good that you experience, you start experiencing his operations even more. **What you appreciate becomes more significant**. This is why **giving glory to God increases his glory over your life**.

Everything is conscious, living energy. What you bless, you give mental life to and it grows and flourishes. **You increase its existence**. What you curse, you withhold mental life from and it withers and dies. You decrease its existence.

What you focus on you magnify. The more people there are to focus on something, the more it is magnified. That explains why **the more popular something is, the more it tends to flourish**. This is the secret of marketing and promotion. Fortune normally follows fame. But the more people shun something, the more it fades away as a part of ordinary life.

The Law of Attraction attracts by creating and creates by attracting. It pulls what you focus on to you, or it pulls together the quantum field to manifest it for you. Focus collapses the wave function into particles and crystallizes the sea of infinite possibilities into something tangible and experiential.

The Law teaches the creative power of thought. This Law is one with the Law of cause and effect. It is this Law that establishes you as a Being made in the image and likeness of the Creator, with a Mind that possesses the same creative properties.

You attract into your experience that which you are in vibrational resonance with. Using the Law of Attraction to manifest what you desire is to put yourself in a state where you are in vibrational resonance with the object you intend to attract. You imagine the situation you desire as though it is already a reality and allow yourself to think the thoughts and feel the feelings related to it. The state of vibrational resonance is the mindset and feeling of already having what you want.

Let's say you want to pick up a new skill such as dancing. You may have started attending classes to learn a particular dance style such as salsa, ballet, or jazz. But you just feel it in your heart and know in your mind that you are already a great dancer. You have the talent naturally within you and learning it will be a piece of cake. It all becomes a flow and you are just expressing yourself in freedom. When you watch famous dancers performing, you feel you're like them, being able to move the way they move and are equally capable of doing their every step and more.

In NLP terms, you can call this modeling or neurological conditioning of your mental and emotional states to follow the patterns of success. But the psychospiritual connection is that, your inner world defines your outer world. You will find yourself being able to master the skill as if you had it all along within you. It is the Law of Attraction at work bringing what you believe you already have to you, simply because you totally feel as though it has always been yours. **The secret is that we have our circumstances because of the way we feel.** How we feel is controlled by how we think.

Proverbs 4:23 Keep thy heart with all diligence; for out of it are the issues of life.

Emotion also has the power to create what you want. Find within yourself what it will feel like to have, be, or do the thing you want and you will begin to manifest the thing you want. **The energy in the emotion will work to pull you toward the thing you want while also pulling the thing you want toward you.**

The Greek word for **grace is charis** which is **to give thanks**. Grace is gratitude. **Gratitude is the channel of receiving God's grace.** Gladness, contentment, joy, happiness and gratitude are the same. Notice that the people who keep winning a lot are those that feel gleeful about and rejoice a lot over their victories. People who rejoice and express their gladness about things the most often seem to be the most grace filled ones in life. What you give thanks for multiplies.

God is the joy giver, to give thanks is to express joy back to God for the joy he has given to you. The same energy that you give is the same energy that you'll attract. Express joy to God and in return, you gain more joy. Seeing people express joy and appreciation about what you've given to them is all the thanks in the world you need from them, and it attracts more of those things from you. **Being joyful, contented and happy attracts things that give you such emotions in your life.** The key is to rejoice, to express your joy and gladness about something whenever you have the opportunity to do so and to express it immensely.

Feel the joy of having what you want, feel it right now and you will begin to pull it to you and you to it. The whole process of mental, spiritual and material wealth may be summed up in one word, **gratitude.**

For you to have something, you must be in a mental and emotional state of having it.

If something is in your life but you feel as if you don't have it or are lacking it, very soon that thing will slip away and you will lose it. For example, you have a great friendship with someone who brings joy and comfort to your life. But somehow you start having this negative idea that friendships don't last for long and whatever good you experience tends to degenerate, then this thinking will generate a negative energy that will influence events to cause things to fall apart between the two of you.

On the contrary if you believe you have a great friendship with someone and that it is something that is a gift from heaven so you can never lose it because it is fated to be that way, then your mindset will cause things to remain that way and even when bad things happen that threaten to break the friendship apart, it

will turn around magically as if that just can't happen. Think of someone you know whom you've "unbefriended" countless of times in your life already and yet are still together with even now, and you know what I mean. That is the result of your beliefs or that person's beliefs about the friendship.

Your thoughts and beliefs create a force that can break something apart even when all other forces are working to keep it together and can keep something together even when all other forces are trying to pull it apart. You can never lose something on the outside if you never lose it within you. Even if it's taken from you, it will come back again or something even better will happen. You can never keep something on the outside if you have already lost it within you. Even if you try every means to retain it, you will still only have an empty shell.

It is all about beingness. If you believe you are poor, no matter how much money you have, you will always be a poor person. Because you have a poverty mentality. If you believe you are ugly, no matter what kind of clothes you wear or how much you try to enhance your appearance, you will still never be truly beautiful. That's because your expressions will communicate that you are not really good looking enough, and so you're trying too hard to appear beautiful.

Look at the world. No one who is truly beautiful think of themselves as ugly. No one who is truly rich think of themselves as poor. Complete beauty is both inner and outer beauty. Inner beauty is in the self-image. What you are is what you see you are.

Having is about being. To have confidence, be confident. To have understanding, be understanding. To have admiration, be admirable. What you have is always meant to be an **expression of** what you are, and **not to define** what you are. It is YOU that defines what you are. What you have, is an expression of your beingness that results as a manifestation of your beliefs, and **whether that manifestation has occurred or not, should not change your inner definition one bit.**

Who you are inside creates the results you get outside. Once you change the way you are inside, the outer world changes. **The energy you give out attracts and creates the results you get.** Change your inner energy and you change your results.

Consciousness defines Being. **To have something is to be in vibrational resonance with the energy of that thing with your being and precedingly, your consciousness.** If you have a consciousness of lacking, you will be a person of lack and the energy of your beingness will attract more situations of not having into your life. If you have a consciousness of having, then your beingness will attract more situations of having into your life.

What you embrace in your inner world creates what you experience in your outer reality. Once you take care of the inner, it will show results in the outer. **When you get the lessons, you don't need the experiences.**

I think therefore I am. I am therefore I have.

People of the world tend to forget this simple truth of all things and that's why they are chasing after all the forms and not realizing the essence.

Luke 19:26 For I say unto you, That unto every one which hath shall be given; and from him that hath not, even that he hath shall be taken away from him.

Be what you want to attract. To attract the perfect partner, be the perfect partner. We often want our idea of the perfect partner to enter our lives and stay forever, yet we are not willing to do what it takes to be the perfect partner for someone else. We can prevent ourselves from painful experiences as well as the loss of precious time and energy if we begin by first working on ourselves.

Everything in your reality follows an internal to external design. Anything you want to add or subtract from your reality must first be added or subtracted from within yourself. One of the main goals in life is to search for that ultimate love, your soulmate. However, that soulmate will never appear if, first, you are not soulmates with yourself.

Like everything in the Universe, we are all beings of Energy, extensions of The Source Energy, always attracting into our own individual realities similar Energy in complete accordance with the thoughts we vibrate. The entire Universe is Energy and all thoughts are Energy characterized by vibration.

Therefore you attract precisely the Energy of situations that are in harmony with the Energy of thoughts that you hold in your Mind, with which you are vibrating and projecting into the Universe. This same Law applies whether your thoughts are positive, negative or neutral, and the effects will be in precise accordance with those thoughts.

The World Within and the World Without

There are only two worlds. The world within and the world without.

The world within creates the world without.

The world within is mental/spiritual, the world without is material/physical.

Complete understanding of the two worlds is perfect knowledge.

The key is to understand the world within and use it to rule the world without.

The world within is the cause, the world without is the effect.

The inner governs the outer always. The outer is a reflection of the inner.

The outer conditions mirror the inner consciousness.

The world within and the world without are not two separate worlds. They are two different levels of the same world.

The world is mental. All is mind, the universe is mental. As above so below, as within so without. This is secret knowledge.

The two most important kinds of knowledge are secret knowledge and governing knowledge. One gives you awareness, the other gives you power.

Secret Knowledge is knowing how things work and understanding what's going on. The reason why it is secret is because it is not normally known. It is so powerful that only those with insight and perception can appreciate its value. Only conscious people can see reality for what it really is.

When you have this knowledge, you can use it first to govern yourself, then use it to govern everything else. This is called using secret knowledge as governing knowledge.

Governing knowledge is knowledge that runs your psyche. It is the governing statements of your mind that determine what you do, how you do it and why you do it. It is the operating dynamics that controls your thoughts, your emotions and your behaviors. What governs you mind, governs your reality.

By governing yourself, you can govern the world. When you can control yourself, you can control others.

You can only control what is without by controlling what is within. All control is self control.

To be in control, you must know. All knowledge is self knowledge.

You can overcome something by overcoming it within. When you overcome it within yourself, you overcome it in the world.

Predict the Future by Creating it

The Future is created by all the thoughts of Man in the present. Astrology helps us to foretell the future because what happens in the world of thoughts has its corresponding expression in the arrangement of the universe. **Everything follows a system of cause and effect.** Therefore what happens in the present will follow a perfectly orderly path that results in what the future will be like.

The truth about Astrology is that **the stars do not determine our fate, they merely reflect it.** The same is true for any system of Divination.

Since Man's thinking can be changed from time to time, the state of **the Future is in constant flux.** That is why whatever that is foretold by Astrology does not always come true. It is not because the prediction is inaccurate. **It was indeed something that was going to happen** at the moment the stars were read, but the thoughts of the person that create the situation had changed. Therefore the Future was changed, **what was supposed to happen at first has been overridden.**

Thought creates Fate. Therefore **when thought is changed, fate is changed.** When thought is fixed, fate is fixed.

The universe is the manifestation of the universal mind. The universal mind communicates with us through the universe.

The universal mind knows our future by what we think in the present. It always feedback the would be results of our thoughts back to us through signs. The universal mind is our guide and counsel. By listening to its divine intelligence, we are given second chances to change course when necessary.

Since the future is in constant flux, the universe is also in constant flux. When our thoughts change, the arrangement of the stars will also change. **When you change your appearance, your reflection in the mirror will also change.** This explains why **when you take a second reading, it will differ from the first.**

This is why the features on your face and the lines on your palm will change when you change your mind. The reading of your fortune from these areas also changes.

Your **inner consciousness is reflected by the outer world of the material.** This is the nature of the universe.

This is the understanding that makes sense of all these things that people have been confused about.

The problem with Astrology and other systems of divination is the misconceptions that people have about them. When they think that negative readings about their future are meant to happen, they begin to focus on it and expect it to happen. In so doing, they seal their own fate and fulfill their own prophesy.

Those who know the Truth are above such systems because they can reshape reality and transform the future anyway they desire according to the infinite source of power that resides within them. **The individual mind working in harmony with the Universal Mind has the highest Authority of power over all things.**

Everyone is creating the future with his or her thoughts. If you are not in control of your thoughts, it means you are controlled by others and they are creating your future for you. You must take charge of your own mind in order to live your destiny.

You do not need systems of divination to tell you your future. **The best way to predict the future is to create it.**

Mental Matrix of Reality - World is Simulation

Some people think that the physical universe is different from the mental planes of reality. But the physical universe is really not as physical as it seems. In fact, **it is just another layer of the mental universe**. Time and space does not exist in the physical universe only, it also does exist on the other planes of reality. Except it is experienced differently on those planes.

The entire universe is a hologram. The world is simply a simulation, like a computer program. All levels of reality are part of that same program. Everything physical is only a concept in the mind of God. As he imagines it to be, we experience it to be. **Reality is a mental construct**. **The rules of physics are just there to "govern" how the physical universe operates**. The universal mind which governs the laws of the physical universe only allows it them to be superceded when it permits.

We are living in the matrix. This is not a computer generated but a **mind generated world**. It is generated by the universal mind which is partly the mind of God and partly the collective consciousness of the people alive.

Do our five senses really operate as energy receptors carry energy in the form of electrical impulses along nerves to the brain in order to be processed by the mind as information? Are we really not able to see the world around us when the electrical impulses are cut off? Does our life support system really operate as blood carrying oxygen from the air that we breathe to our body cells in order to nourish and repair them? Are we really not able to process energy without the means of our blood?

While looking at your feet, stomp on the ground. You will notice that your visual perception of your foot hitting the floor matches your sensation of touching it. This would be fine except for one thing: the speed of light is vastly faster than the conduction times and synaptic delays through the long nerves and spinal cord from your feet. As a result, you should be seeing the event before you feel it and the delay should be noticeable.

Scientist can study how the physical system operates in order to work with it. We have to follow the rules of a system when we are in it, in order to function in it. But **the physical system is only a simulation to provide logic and order to how reality operates on the physical level**. The simulation is only a mask over how true reality operates. We do not actually see with electrical impulses being sent from our eyes to our brains through the channel of nerves. We sense energy directly with our mind. We do not actually live with oxygen flooding our cells through the use of blood. We absorb energy directly from the universal field of energy. We perceive everything as energy directly with consciousness.

When we think, we think as conscious mind. When a thought becomes substantiated, it substantiates in the subconscious mind. But what is man's subconscious mind? It is his mental field or frequency in Universal Subjectivity. There is no such thing as your subjective mind and my subjective mind, meaning two, for this would be duality. All mind is One Mind. But there is such a thing as the subconscious state of your thought and of my thought in Mind.

When we think, we think through a Universal Creative Medium, a receptive and plastic substance which surrounds us on all sides, which permeates us and flows through us. When we think, we think through and into the One Common Mind producing points of mental activity within it. We exist as the universal mind differentiated into individual minds. We think as universal conscious mind through the Universal Subconscious medium. As each person thinks, he is building around himself a mental atmosphere. Nothing can enter unless he allows it to, through the avenues of his own thought whether conscious or unconscious.

There is no other place that we could think, since Mind is Omnipresent. **There is no out there**. Everything exist as projections in the external world from within ourselves. Even the experience of internal to external projection itself is an experience in our Mind. **It is a projection of consciousness within consciousness**.

There really is no external or internal for everything is at one place where Mind is. Mind is everywhere yet nowhere. Mind is nowhere but Here, Now. Everything is created by consciousness and nothing is outside of consciousness.

Our heart is our subconscious mind. The **Universal Field of Subjectivity** is the key to understanding what it means when we say someone is always with us because that person is in our heart. We might see, hear and touch the person, but that is just a means of experiencing each other through physical form. Of course **Spirit must manifest into form in order to express itself**. But once we experienced each other physically, we know that we are always connected to each other no matter where we are. There is no separation. The person exist in Universal Subconscious which is in our heart. That person is in us literally.

Metaphysics of Time, Space and Things.

Time simply measures change. Beyond that simple function, time is nonexistent. There is really only the "now". "Time is a sequence of events in a Unitary Whole." Time is not a thing of itself, it is simply a measure of experience in eternity. **Time does not contradict Eternity, but allows It to become expressed in terms of definite experience**. Time is necessary since it allows experience to take place within the One, but time is never a thing of itself. It is really impossible to measure time. For yesterday is gone and tomorrow has not come, and today is rapidly slipping into the past. If we were to attempt to put a finger on any period of time it would be gone before we could point to it. But, illusive as time is, it is still necessary to experience.

Space, like time, is not a thing of itself, but is only the outline of form. It is a relative distance within the Absolute. Space is also necessary to the expression of Spirit, for **without it no definite form could be produced**. We must not be confused over the ideas of time and space, as they are not things of themselves. They are entirely relative, but none the less necessary.

Things are mean forms in time and space. Things are always results and never make themselves; they are the objectifications of Spirit. Things are necessary to the manifestation of Spirit. They are the result of the Self-Knowingness of the Word of God. Things vary in size and shape, in time and duration, from the planet to the peanut, from a moment to an eternity. It is necessary that Spirit should manifest in SOME KIND OF FORM in order that It may come into Self-Expression through Self-Realization. The world is waking up to the fact that things are not at all what they appear to be, that matter and form are but the one substance appearing and disappearing, and that **form is simply used to express something which is formless**, self-conscious life.

Form in the astral world is not as definite as form in the physical world. But **the physical world is not as definite as it seems because it is governed by true reality**, and true reality is highly fluid. **Physical reality and mental reality and different levels of the same program, running with a different set of parameters**. The difference between the physical world and the astral world is that of time. Change happens slower on the physical plane because energy moves at a slower rate on their plane but on the astral plane, things can happen very quickly.

There is only one place that is far more definite than physical reality. It is a place where you really can't change the conditions in it with your mind. It's vibrations are the lower and denser than Earth. That place is Hell. Beings that exist there will forever be tormented with fire in anguish, pain and misery. It is where things are truly hopeless and there is nothing you can do about it. Hell is the condition of having no alternatives. Both heaven and hell are real places, but while on Earth, your experience can either be a heaven or hell depending on whether you live in higher consciousness where anything is possible and change can happen fast, or hell consciousness where things are hopeless and impossible.

The physical plane is where the challenge is. It is a loss to give up living in the physical world and to enter the astral world just because one is in despair of the difficulties in manifesting desires on that plane. It is precisely for that reason that we are truly able to **develop and test our powers of mind** in order to fulfill our

realization as spirit beings. The purpose of physicality is to lock different beings into common dimensional arenas of interaction, so they can evolve via that interaction. Gaining the ability to be in control of reality at the physical level is gaining the ability to be in control of our own minds to the fullest degree. Ruling and reigning over reality is expressing who we are as sons and daughters of God, created in the true spiritual image of God.

Being Enlightened Gets You Everything In Life

Enlightenment is about seeing through the illusions of life and knowing what reality really is. **When you are enlightened, you can have everything you want.** Because you'll know the truth about what everything is, and what does it really mean to have something. **It is an irony of the world that the people who seek material things and desire to have them before thinking about enlightenment, tend to attain neither, but those that acquire enlightenment first are the ones who do.** The desireless attain all their desires.

Being desireless is not about having no desire, but it is about having no attachment to desire. Attachment is the cause of all suffering. Suffering is burning emotional energy on the uncontrollable. The more you suffer, the more suffering you attract. **Letting go of all attachments is the way to end all suffering.** When you are attached, you are in a state of wanting or lacking. When you are detached, you are in a state of being desireless. **Enlightenment is about knowing why detachment gets you your desire.**

Physical reality is an illusion created by consciousness to rediscover itself. It is an illusion that you do not have what you already want, because you already have all that you desire in spiritual reality. Physical reality is a place for you to manifest anything that you are resonating with from spiritual reality. When you are attached, you are resonating with the spiritual untruth that you do not have your desire. **When you are detached, you are resonating with the spiritual truth that you already have your desire.**

You free yourself by being emotionally detached from choices. Many people fail to get what they want because they do not free themselves to have it. **You trap yourself when you are attached to choices.** You think that it has to work a particular way rather than allowing yourself to go another way. Detachment from choices is what gives you true freedom of choice. **You are able to choose again in every moment and are free to make a different choice if you will.** Detachment from choice is secret of flexibility.

Stock market trading success comes to those who trade in an enlightened way. The masses are emotionally attached to choices and that is why they lose money when they hold on to failing stocks instead of selling them. They also fail to sell when the stock has reached a substantial level of growth because they are attached to seeing it grow forever. **The elite traders are not attached to choices but they buy and sell freely in a way that makes them more money than losing it.** To be unattached is to be free.

Having the relationships you want also comes from being enlightened. **What a woman really wants is an enlightened man.** He is a man who realizes his true being as a free spirit. He is free to express himself to her and he is free from being affected by her. Being detached is the attractive quality that makes a man uncontrollable by a lady. Being undefined by external factors is what makes him self assured. **He is capable of loving fearlessly and loving without attachment.** Enlightened loving is loving like a god.

Those who are enlightened get what they want by benefiting from movement and changes, whether positive or negative. It no longer matters to them whether the stock goes up or down. They have strategies to make money either way. It no longer matters to them whether which person likes or don't like them, or when their partner is happy or unhappy with them. **They simply allow themselves to enjoy all the happiness and positive energy they experience from whoever, whenever and however it comes.**

Enlightened manifestation of your desires is about getting the essence of what you want and not being attached to the form or channel. Those who are attached to form or channel will suffer more and more, and have less and less self esteem. Whereas **those who are not attached will be able to enjoy more and more of the things they like in life, and have more and more self esteem.** Those who have more self esteem are more capable of having the success and relationships they want compared to the others.

Freedom from attachment is also the reason why the rich get richer and the happy get happier, while the poor get poorer and the unhappy get unhappier. Having comes from being. When you are being detached, you are resonating with having. When you are being attached, you are resonating with not

having. That is why it has always been said that you will finally be able to have what you want when you no longer want it. It does not mean you do not want it, but you are no longer in a state of wanting it.

All that we want is peace and bliss. We think that when we have all the material things we want, we will have peace and bliss. But that is because we don't really know what peace and bliss are. It is peace and bliss that bring us everything else in life. Peace is total transcendence. Bliss is an untouchable happiness. When we transcend all illusions of the material world, we are in a state of peace where we can manifest anything we want. When we have no attachments, we have a happiness that cannot go.

Enlightenment is the key to everything. The unenlightened may ask what enlightenment has got to do with making the money or getting the girl that you want. The answer is everything. When you are enlightened, you realize that it is not about getting this or that, but it is all about knowing what reality is, and who you really are. Then from that space of knowingness and beingness, you are free to create whatever you wish. You're free to play with illusions without being trapped by any, as it is all just a game.

Experiencing Total Bliss and Serenity of Being

The ultimate aim of all human beings is to experience the state of total bliss and serenity of Being. Some call it Nirvana which is an aspect of enlightenment. Nirvana is the highest happiness. It is not the kind of happiness that is temporal and fleeting based on earthly issues. It is eternal happiness that comes from enlightened consciousness. In that moment of realization about the truth of all reality and the recognition of self and universal power, one attains the feeling of ultimate bliss, freedom, power and peace.

The purpose of acquiring power is so that you can do what you want, and protect yourself from harm. Power gives you freedom of expression which results in serenity of Being. When you have power you are free, but in order to be powerful, you also need to be free. Freedom comes from knowing the truth, and that's why knowledge is also power. Power, freedom and knowledge are synonymous. The path to everything is really the path of knowledge. When you know the truth, you will have power and freedom.

Every evil and suffering in this world is the result of ignorance. People can end suffering by seeking knowledge but those that refuse to learn and know more are those that continue to be unhappy, powerless and trapped. The truly intelligent seek knowledge and understanding to break free from the illusions of this world and rise above them. All suffering is for the purpose of pushing you to become enlightened. When you're enlightened, you transcend the need for all suffering because you are free from them all.

The most direct path to enlightenment is the path of insight. Since enlightenment is seeing through illusions into reality, knowledge gives you instant realization of what is illusion and what is reality. It is to become conscious and aware about what is and how things work. The way to knowledge is through learning and thinking. You cannot learn without thinking and you cannot expand your thinking without learning. Knowing fully the ultimate goodness of the universe gives you complete certainty of goodness.

In that space, you feel safe, protected and nurtured. It is like being in the womb of the universe where there is complete safety, provision and love. You are one with the Source and are taken care of by it. You know that everything happens for your highest good and all that you desire comes to you in divine order and divine timing. You are aware of higher direction in every moment therefore you live life knowing what the right thing to do is. You are never left hanging and so you walk each step with peace.

When you know who you really are and how the universe is like, you experience a state of completeness and wholeness. It is a place where you cannot lose, because you have everything you want in life, and there is nothing that can be taken away from you. Nothing can be withheld from you that you don't already have. It is a state of invincibility where you are feeling victorious and triumphant. You know that nothing matters because ultimately you are All That Is, and that you can trust the move of Spirit.

There are two aspects of power. One is your own power and the other is the power of the universe. You know both power by knowing the universal flow and the power of intention. You know the universal flow by knowing that everything is happening for your highest good. You know the power of intention which is your own power to create whatever you wish to create and to form reality at will. This gives you absolute and complete power as well as freedom. Nothing beats embracing God's power as your own.

When you have complete knowledge of complete power, you are capable of creating and flowing. You know that you can create whatever you want with your intention and you are able to detach from whatever happens, knowing that things are going exactly the way you want according to your higher self. Having power makes you feel secure because nothing can hurt you and you will always win one way or another. Security that comes from enlightened consciousness is security that is eternal and the highest.

When you have knowledge about the higher level and the lower level of reality, you are free to move within and beyond the system. You know that you are different from the masses that keep creating all kinds of problems for themselves and trap themselves in all sorts of illusions. You know that you can play

in whatever area you wish to play and win beyond the usual standards of winning. **There is a gleeful kind of feeling you experience when you are enlightened about the world and how you can totally own it.**

Experiencing Nirvana makes you feel like the luckiest and the happiest person on earth. You realize that the whole universe belongs to you and that you are a master of life. **There is no one else like you and who has what you have.** It is the feeling of having arrived and being there to stay forever. **You feel that your life is in the best possible state there is and will continue to be the best onwards.** You no longer have to go through ups and downs like the rest but you live on a plane that is continually ascending.

You polarize yourself above the pendulum swing of human drama with perception and intention. The experience of feeling safety, security and nurturing by the combined power of the universe and of yourself is also the experience of self love. When **you feel such absolute feeling of security, power and happiness about yourself, you can also cause others around you to feel that way with you.** You have total peace and bliss. **You feel like you are a god in this world.** Like a Buddha. You transcend all areas of life.

Making Money through Sharing of Spiritual Gifts

One of the greatest fallacies in this world about spirituality is the negative idea towards making money from it. There are people who think that those who provide spiritual value or service to others should do so for free. They associate money as a thing of the world, and shouldn't be mixed by the higher things. This kind of mentality is exactly what causes the topsy turvy state of the world and humanity's progress. Even those who claim enlightenment from materialism are actually unenlightened about the truth.

If people weren't allowed to receive money for spiritual healings and teachings then this would mean that they would need to get work doing something non-spiritual. This would mean that they spent a lot less time doing spiritual work and practice, which would mean that they may well know less about spiritual matters and would probably have less time to teach also. This would end up meaning that their overall spiritual contribution to the world could well be a whole lot less! How could this be a good thing?

It is an irony that those who provide the lowest form of value in this world get to make the most amount of money, while those who provide the highest form of value get to make the least amount of money. The steel magnate, the oil baron, the real estate tycoon reap the riches of society. But the mystic, the spiritual master, the teacher of enlightenment seems to forfeit attaining the wealth that they so deserve. In this plane, many things are bottom up. It is no wonder that humanity's progress has been slow.

The most valuable thing should be given in exchange for the highest price. Enlightenment is the most valuable thing of all. But the problem is that most spiritual masters are not charging for what they're worth. That is why they don't gain the power and influence that material wealth can bring them. It is those dealing with the lowest value items in the universe such as natural resources that gain the greatest power and influence through attainment of huge material wealth. Enlightenment is offered for nothing.

Since spirituality is not commonly sold, most people do not go for it. People perceive that when something doesn't cost much money, it doesn't have much value. They would often spend their money on frivolous items that are sold for high prices and marketed intensely to them. All the while they're not realizing that the greatest thing to buy is truth and wisdom. The best things in life are usually offered for little or for free. The trouble is people often walk by those very things in pursuit of other useless stuff.

Natural resources are the least valuable things on earth because they are provided by nature in abundance. Intelligence and spirituality are the most valuable things that humanity can have. The more intelligent and spiritual humans become, the more efficiently and effectively they can extract and utilize natural resources. When humans lack intelligence and spirituality, they waste resources or use them unwisely and therefore create conditions of scarcity. This makes it even harder to progress spirituality.

When humans suffer from lack in the lower hierarchy of needs, they tend to focus more on fulfilling those needs and neglect higher ones. The very irony is that it is the fulfilling of higher needs that take care of all other needs. The highest need of all is spiritual intelligence. It is the only true need there is. When you have wisdom, insight and awareness, you can create conditions of abundance, fulfillment and happiness. When you lack spiritual intelligence, you can never truly solve all your lower problems.

All it takes is a single shift in mindset to move from a position of powerlessness to a position of true power. The line that separates the elite from the suffering masses is very sharp. On one side, you are forever undergoing endless cycles of trying to break free from debt, making the life you desire and finding the happiness that never seems to come. On the other side, you attain instant fulfillment of your true purpose and attain everything you truly desire very quickly. Yet that shift is most difficult for so many.

Those who presume enlightenment from materialism by having a negative idea towards making money from spiritual work are still very much unenlightened actually. The more enlightened ones realize that money is only a tool in this world, and is meant to be used to the fullest in the work of spirituality. When

they market spiritual products and services intensely and charge premium prices for them, they increase people's perception of such things, and obtain great financial rewards from providing such value.

These wiser spiritual masters are then able to use their great spiritual and financial wealth to do even greater good in this world than all other spiritual masters and wealthy businessmen put together. Those who provide the best of their spiritual gifts and charge the best prices for them are the ones we should seek to learn and benefit from the most. It is because they have the higher consciousness to do what most people are not doing. They have the ultimate combination of higher and lower things in this world.

The most unlimited ones have the greatest power, freedom and wealth in this world. The more unlimited you want to be, the more unlimited your mind must become. The more unlimited you are in paying for spiritual things, the more of such things you can attain. The more unlimited you are in charging for your spiritual work, the more you will be able to give of those very same works. The ultimate enlightenment is to overcome all limitations that get in the way of being, doing and having all that we truly want.

Mental Knowledge - All Knowledge is One Knowledge

All mistakes are mistakes of ignorance. Knowledge gaining and consequent power is what determines growth and evolution. Knowledge is the result of man's ability to think.

Thought and Knowledge are One. Thought leads to knowledge and knowledge influences thought. Choice is an illusion created by those in control for those who are not. To be in control, you must know. It is knowing how things work and understanding what is going on that gives you awareness of the governing dynamics of reality. It is awareness that puts you in a position of being a master player instead of a pawn on a chessboard.

You can't think of everything and produce all knowledge yourself as fast as you could by using other people's minds, thinking and knowledge. **Unifying knowledge of others and your own is the best way to achieve greater awareness in the most efficient way.** It is the fastest possible way to gain power. It's all about speed and power.

Fear is power being projected outside of us. If you believe you have no power over something, you become afraid it can harm you. Doubt is not believing in our power to create a desired outcome for a situation. It is all based on belief. Belief based on awareness or ignorance.

All power is from within, and is absolutely within your control. No power is without. Everything that happens without is happening within. All of reality is in your mind.

From a reality creation perspective, fear and doubt can become two of your best friends. When you're feeling afraid or powerless, or feeling doubt about the outcome of a situation, it's a chance to step back and say: "Aha, here is another area for me to reclaim my power." Fear and doubt are transformed from something which blocked you from achieving your goals, to friendly advisors who wave bright orange flags at any place in your life where you don't believe in your own power.

The only cause of fear is ignorance. The opposite of fear is a sense of power. Knowledge is power. To move from powerless to power is to move from not knowing to knowing.

Wisdom, understanding, prudence, intelligence are all knowledge. They are all knowledge of one type or another.

Knowing and knowingness is knowledge. Anyone who thinks this or that is different from knowledge is thinking of knowledge in the partial sense. Knowledge in the total sense encompasses everything there is about consciousness.

The purest definition of knowledge is awareness. Awareness of anything and everything.

Awareness is power, the more you have it, the more power you have over every area of life. **Perception is the key to solving all our problems.** Understanding the problem dissolves the problem.

Awareness is power because awareness gives you choice. Choice is an illusion created by those in control for those who are not. To be in control, you must know. You must know how things work and understand what is going on. You need awareness to make conscious choices.

Awareness is the first step, the second step is change. You should understand what you intend to change and the reasons behind it. Knowledge brings awareness therefore knowledge is power. All of life is a learning experience for you to become all you can be.

All knowledge is self knowledge. In the end it is all about discovering ourselves. The world without is a reflection of the world within. By learning about the universe, we understand our inner universe. The reverse is also true.

The greatest thing in the universe is mind. Therefore **the greatest knowledge is knowledge of mind**. Mind is the governing dynamic over all governing dynamics of reality. Mental knowledge is mental power. Mental power is the ultimate power of all.

The ultimate mind is the universal mind. The universal mind is the universal spirit. **Knowledge of the universal mind is ultimate mental power**. Mental knowledge is spiritual knowledge. Mental power is spiritual power because Mind and Spirit are one.

Transformation comes from renewing of mind. When your awareness advances to the next level, change automatically happens. What you know, you are. Knowing is being.

Being leads to doing. The ability to do anything comes from knowledge. **Knowledge is what enables us to move anywhere**. All action is movement. All movement is mental.

Knowledge can come in all ways. The aim is to acquire as much as possible so that we can gain more range of movement. The more we know, the more freedom we have to maneuver and the further we can transverse in any direction. **The more freely we can move, the more unstoppable we are**. The more nothing can hold us back or stand in our way, the more powerful we are.

Knowledge is power. **Freedom comes from knowing the truth**. **Knowledge, power and freedom are one**.

Get to the core and the essence. **Understand how things happen in the natural way, and how to do things in the natural way**. There is no doing but nondoing in that way. One's inferior natural work is better than superior unnatural work. **It is the simplest knowledge and first principles you need that can bring you everything you want in life**. Every other supposedly advanced forms of knowledge are just spin offs from the simple ones. **There is not a lot but only a little to know, for the little is everything**.

All you need is the simple awareness that helps you realize the truth in order to free your mind in the natural direction. And to keep being reminded of those knowledge from one to the next, from time to time in order to bring them all back to our yet to be fully solidified consciousness in physical reality. This is the process of our mental shaping and spiritual completion. **You have to get the right foundation in order to engage everything else with it**.

All knowledge can be organized and reorganized. Essence is the primary thing. Organization is the secondary. As long as everything written in a particular work of knowledge is real substance and not fluff, it is well written. **The less fluff there is, the less wastage of mind**. The better organized the knowledge, the greater order of mind. The more focused, ordered and clear the mind is, the more powerful it is.

No young man can hope to do anything above the commonplace who has not made his life **a reservoir of power on which he can constantly draw**, which will never fail him in any emergency. Be sure that you have stored away, in your power-house, the energy, the knowledge that will be equal to the great occasion when it comes. "If I were twenty, and had but ten years to live," said a great scholar and writer, "I would spend the first nine years **accumulating knowledge** and getting ready for the tenth."

They say that applied knowledge is power. The truth is, action naturally follows consciousness. **To know and not do, is not yet to know**. When you know and not do, it means you have not really known enough to be compelled to act automatically yet. You just have to know some more until your actions begin to flow with your intentions. When knowledge becomes your thoughts, your thoughts control your being and doing.

It is also true that knowing alone is not enough but **you have to use what you know**. This is what you **have to know** as well. Know that you have to use what you know and use it.

If any man thinks he knows (Eido - understand spiritually) any thing, he knows (Ginosko - experiential knowing) nothing yet as he ought to know. **Head knowledge needs to be accompanied by experiential knowing.** Spiritual Evolution is about acquiring Gnosis, Illumination, Enlightenment and Awareness. Reading the word of God is for the purpose of increasing in wisdom, understanding, spiritual intelligence and discernment. Transformation of Mind is transformation of Being.

Some people have the idea that believing in spiritual things is enough without experiencing. But that is so wrong. **Experience is crucial for true knowing.** Intellectual comprehension of faith, love and the workings of the universe is important and absolutely necessary. But these things must also be experienced to be truly known. **We are here to live and to experience the things of God as a reality.** **When you experience something powerfully, nothing can take it away from you.** Remember that all experiences are mental in whatever form or level they take place.

Even if you have all knowledge, you still have the **free will to choose your thoughts.** Since thought and knowledge are one, to know correctly is to think correctly. **Wrong thinking is ignorance. Right thinking is knowledge. The only evil is ignorance. The only good is knowledge.** To sin is to sin through ignorance. **Ignorance is the only evil that leads to all other forms of evil including pride, malice and hatred.** Choose to think correctly.

All knowledge is mental. All knowledge is one knowledge.

Life Manifest by Varying Degrees of Intelligence

Life is manifested by varying degrees of intelligence. **The more intelligent something is, the more life and freedom it has.** Inanimate or mineral life represents the lower forms of intelligence while a higher degree of intelligence can be recognized in plant life. When you look at a flower, do you consider it beautiful? It is a greater expression of the infinite intelligence which is expressing itself as beauty, form, color and above all, joy. **When more life is manifested, the more intelligence and joy there is.**

In the animal kingdom, you can recognize a quality of life and intelligence that is greatly advanced than that manifested in the flower. **When there is greater intelligence, there is greater range of mental, emotional and physical phenomena capable of being experienced by the life form.** The highest expression of intelligence and life is human as it has the power of freewill and choice. **The inanimate, plant, animal and human are expressions of the one universal life differing only in varying degrees of intelligence.**

You express a very high degree of intelligence in desiring to understand the laws of life. **When you discover some part of these laws, you'll ascend the scale of intelligence as you make use of your knowledge.** A person who perseveres through difficulties and emerges successful, manifests higher form of intelligence than the one who gives up and lives a miserable existence. **Intelligence is present in all human beings but it can only increase by being used.** A developed will is the tool for manifesting intelligence.

The greater your intelligence, the more easily you can call into action the highest order of creative energy. **The more highly you develop your intelligence through self education, the more you will find your old limited ideas of what you are not, cannot be, do, or have, subliminally fading away.** By using your intelligence and resting upon it to guide you towards ultimate reality of all, you will come to recognize that you are as much a part of the very highest Intelligence as a drop of water in a part of the ocean.

Degrees of intelligence prove man's place in the universe. Human life is the highest form of intelligence in the physical dimension, which is why man is the apex of life. But **varying degrees of intelligence also results in varying positions of man in society.** The ones with higher intelligence are in positions of power, leadership and influence. In warfare, you never see the general putting his life at the front. It is usually the lower masses of soldiers sacrificing themselves in the fray. **This is the natural order of things.**

Higher intelligence and higher life are meant to be preserved and sustained usually by lower life. Plants absorb minerals from the soil while they themselves are food for animal life. Animals are killed and eaten by human beings. **People who are enlightened about the divine order of the universe would understand that this is perfectly alright.** Only the half enlightened would fight against the natural order. In humanity, the less intelligent are meant to serve the more intelligent whether be it in business or politics.

If you want to rise in position and power, you must rise in intelligence and wisdom. It is not fitting for a fool to be a prince. Many people want material abundance, success and power in life without first acquiring the character qualities that qualify them for such things. That is why **those who chase the outer things without building on the inner qualities end up with neither part in their lives.** If you want success, you must have the qualities of success. If you want wealth, you must be wealth. Being leads to having.

A lower degree of intelligence is one that is unable to recognize itself as being one of the highest forms of life. **The highest degree of intelligence is that form of life which is able to recognize itself as related to all existing Intelligence.** When you are convinced that every physical circumstances or thing has its origin in corresponding activities of the mind, you are able to conquer adversity in any form, because you know you can always control your thoughts. **You must always be willing to do your own thinking.**

You are not a victim, you are a part of the universe. **Those with victim mentality express lower level of intelligence and life.** Plants have no choice in being eaten by animals, and animals have no choice in

being eaten by humans. **Less intelligent humans have no choice in being controlled by adverse circumstances and other humans.** The more you know how your thoughts create reality, the more of a conscious and powerful creator of your reality you become. One must choose to have a choice, to have a choice.

We inherit a certain amount of our thoughts just as we inherit a certain amount of physical traits. We inherit those qualities from the DNA and collective consciousness of our ancestral link. **If you want greater freedom and life, you must think for yourself, and in your own way,** irrespective of what your ancestors thought, even though some of them might have brought desired results. **This is to exercise intelligence and freewill.** It is to be a leader instead of a follower, and a creator of your reality instead of a victim.

Infinite intelligence expresses itself as all things but most of all as joy. We are all here to experience the joy of living. Joy is the happiness of love. The more intelligence you have, the more freedom, power and joyful state of life you would experience. **One's efforts therefore should be wholly directed to the attainment of a higher degree of intelligence, rather than to the acquiring of material things.** When you increase in intelligence, you can get all you want in greater quality and quantity through better ways.
